

Take-Home Service via Curbside or Delivery

Our Take Home Program offers an abbreviated selection of a la carte items we think are best enjoyed at home. Our sharing dinners for 2 or 4 are offered to be enjoyed family-style. We will continue to add specials on certain days to give even more selection and variety. **Please check the website often.**

Some popular signature items are not available because the quality of the dishes cannot be duplicated with takeout or delivery.

We encourage our guests to order from Door Dash online or call the restaurant and provide your credit card information for ease of pick up. All available modifications are listed on the website.

Gratuities are shared equally among the culinary and to-go support staff.

We will gladly deliver your order to your car or curbside or through a delivery partner.

Presentation can also be important when enjoying a meal and using your own plates and serving dishes can add to the experience. We do not offer utensils as our food is intended to be enjoyed at home.
